NOTICE OF INTENT TO ESTABLISH AN OPEN VIDEO SYSTEM

RCN Telecom Services, Inc. (“RCN Telecom,” formerly RCN Telecom Services of New Jersey, Inc.¹), pursuant to Section 651 of the Telecommunications Act of 1996 and Section 76.1503(b)(1) of the Commission’s Rules, hereby submits its “Notice of Intent,” (“Notice”) to establish an open video system (“OVS”). As required by Section 76.1503(b)(1), RCN Telecom respectfully submits the following information:

1. The OVS operator is RCN Telecom Services, Inc. The contact person for the operator, Scott Burnside, Senior Vice President of Regulatory Affairs, is located at 100 Lake Street, Dallas, Pennsylvania 18612. Mr. Burnside may be reached at (570) 674-1801.

¹RCN Telecom Services of New Jersey, Inc. was ultimately merged into RCN Telecom Services, Inc. See *Letter to Magalie Roman Salas from Jean L. Kiddoo* seeking to amend OVS Certifications (September 20, 1999).

2. RCN Telecom's projected service area encompasses the Northern New Jersey area including all or portions of Bergen, Essex, Hudson, Middlesex, Passaic and Union Counties in New Jersey. Currently, RCN Telecom's principal headend is located at 279 Amwell Road, Hillsborough, New Jersey, and it will be technically integrated with ancillary hub sites capable of serving subscribers in all of the communities listed below. RCN is currently constructing a headend at 65 River Road, Nutley, NJ, that when completed will replace the Hillsborough headend as the principal headend serving the communities listed below. The Nutley headend will be technically integrated with ancillary hub sites capable of serving subscribers in all of the communities listed below. RCN Telecom is currently in the process of securing locations for the ancillary hub sites in the Northern New Jersey area. RCN Telecom plans to serve the general population within this technically integrated OVS service area.

I. Bergen County

3. The open video system will have a maximum of 330 channels available, each consisting of 6-MHz analog capacity. Subject to demand from prospective Video Programming Providers (“VPPs”), RCN Telecom will evaluate and may implement an alternative technology including, but not limited to, a switched digital open video system. In any event, the selected solution will satisfy VPPs channel requests and meet all OVS channel capacity requirements.

4. VPPs interested in carriage on RCN Telecom’s open video system may obtain additional information about the system by completing the OVS Information Request Form (Attachment 1) and submitting it to:

Scott Burnside
Senior Vice President of Regulatory Affairs
100 Lake Street
Dallas, PA 18612
(570) 674-1801

Pursuant to 47 C.F.R. § 76.1503(b)(2) of the FCC’s rules, within five business days of receipt of a request for information, RCN Telecom will provide the VPP with additional

information regarding the open video system to enable the VPP to make an enrollment decision. With this information, the VPP also will be provided with additional forms and instructions necessary for carriage on RCN Telecom's open video system. If a VPP decides to seek carriage on RCN Telecom's open video system after receipt of the additional information, the VPP must submit the required forms, a non-refundable application processing fee, and a channel reservation deposit by the end of the enrollment period.

5. One third of the system's maximum capacity will be set aside for RCN Telecom and/or its affiliates. In addition, RCN Telecom will utilize approximately 3 channels to carry public programs, educational programs, governmental programs, in addition to approximately 13 "must-carry" stations entitled to demand carriage pursuant to 47 C.F.R. § 76.56 and §76.1506 of the FCC's rules. The remaining channels will be available for interested VPPs. No VPP will be assigned more than the capacity set aside for RCN Telecom and its affiliates.

6. The enrollment period for VPPs seeking carriage on RCN Telecom's open video system will commence on October 17, 2000 and will conclude January 16, 2001, or 90 days after the Federal Communications Commission releases a Public Notice of this Notice of Intent, should Public Notice appear after October 17, 2000. In order to allow for contract finalization, ensure orderly channel allocation and allow timely systems allocation to occur, VPPs are encouraged to submit their preliminary enrollment requests by December 18, 2000. Allocation of capacity in the event demand exceeds system capacity will occur as described in Attachment 2.

7. Attached is a certification that RCN Telecom has complied with all relevant notification requirements under the FCC's open video system regulations concerning must-carry and retransmission consent (47 C.F.R. §76.1506), including a list of all the local commercial and

non-commercial television stations served. (Attachment 3). An example of the notification letter sent to television stations pursuant to this Section is also appended hereto. (Attachment 4). Also attached is a certificate of service showing that RCN Telecom's Notice of Intent has been served on all local franchising authorities which are located within RCN Telecom's anticipated OVS service area (Attachment 5).

Respectfully submitted,

RCN Telecom Services, Inc.

RCN TELECOM SERVICES, INC.
OPEN VIDEO SYSTEM
CHANNEL ALLOCATION PROCESS

RCN Telecom Services, Inc.'s ("RCN Telecom") anticipated total system capacity on its open video system is 330, 6 MHz analog channels. The following channel allocations already have been made:

RCN Telecom: 110 channels for video programming + approximately 16 channels for the PEG/Must-Carry requirements. The remaining number of channels to be allocated is 204.

RCN Telecom encourages VPPs to submit initial capacity requests by December 18, 2000. At that time, the total number of channels requested from all VPPs will be calculated. If sufficient capacity exists to fill all requests, each VPP will be allocated

channel capacity equal to its request. If the sum of all channels requested exceeds available channel capacity, each VPP requesting fewer than 6 channels will receive its requested channels; VPPs requesting more than 6 channels will receive at least 6, total capacity permitting. The remaining channels will be allocated to each VPP requesting more than 6 channels on a pro rata basis; that is based on the ratio of the remaining number of channels requested by all VPPs.

The following is an illustration of the allocation process based on the availability of 204 channels and a request for 388 channels from multiple VPPs.

	<u>Channels Requested</u>	<u>Minimum Allocation</u>	<u>Remaining Chnls Requested</u>	<u>Ratio of Rmng Chnl Avlble to Rmng Chnl Requested</u>	<u>No. of Channels Allocated</u>
A	2	2	0	--	2
B	6	6	0	--	6
C	20	6	14	.483	13
D	110	6	104	.483	56
E	150	6	144	.483	76
F	100	6	94	.483	51
Total	388	32	356		204

Because VPPs C through F all requested more than 6 channels, each VPP is allotted up to 6 channels as the minimum allocation. The remaining number of channels available to be divided among the VPPs is 172 (204 channels minus 32 channels).

The number of available channels to be allocated on a pro rata basis (172) is divided by the remaining number of channels requested (366), which equals .483. This factor is used to calculate the distribution of the remaining 172 channels to VPPs C through F.

The remaining channels requested by VPPs C through F are multiplied by the pro rata factor (.483) to determine the number of channels the VPPs will be allocated in addition to the six channel minimum. Fractions of channels have been rounded to the nearest whole number, provided that the sum of all allocations not exceed the total number of available channels.

RCN Telecom will mail a notification to each VPP to confirm the channel capacity allocation within two (2) weeks of receipt of all channel requests. Any VPP that is allocated fewer channels than it initially requested may withdraw its channel capacity request by notifying RCN Telecom by mail. Cancellations must be received within five (5) business days of receipt of the channel capacity allocation notification. Channel capacity made available through the withdrawal of one or more VPPs will be reallocated on a pro rata basis to the remaining VPPs who did not receive their full request. Within five (5) weeks of the initial channel capacity allocation notification, RCN Telecom will mail a notification to each remaining VPP to confirm the final channel capacity allocation.

Dear Mr. Wilhelmy:

This letter serves to inform you that RCN Telecom Services, Inc ("RCN Telecom") intends to begin operating an Open Video System ("OVS") in the towns listed on Attachment 1. Service activation is expected to occur in January 2001. The OVS will have 330 channels of analog capacity.

Due to the OVS's planned geographic deployment, your station is entitled to carriage, should you so elect, provided it is subsequently determined that the station delivers a good quality signal to RCN Telecom's headend located at 279 Amwell Road, Hillsborough, New Jersey, 08876, and provided further that carriage of the station will not subject RCN Telecom to copyright liability. Under the Federal Communications Commission's ("FCC") OVS Rules, 47 C.F.R. 76.1500, et seq., you may elect mandatory carriage, or you may negotiate consent for retransmission of your signal. All video programming providers ("VPPs") on RCN Telecom's OVS will be notified of your decision. If you elect "must carry," RCN Telecom, as the operator of the system, will deliver your signal to all subscribers of any VPP on the system. If you elect "retransmission consent," you may negotiate with one or more VPPs delivering programming over the system for inclusion in their programming package. Please notify us by Certified Mail within five (5) business days of your election.

RCN Telecom's OVS will initially provide service in the same geographic areas as certain Cablevision, Comcast and Time Warner Cable systems. Therefore, pursuant to FCC Rules, your election for OVS must be the same as any election you make with respect to the above-mentioned cable system operators in the communities listed on the attachment.

004

The FCC's OVS Rules also specify that of RCN Telecom, as the system operator, must receive notification with respect to blackout requirements related to sports broadcasts, network non-duplication, and syndicated exclusivity. RCN Telecom will make all notifications available to appropriate VPPs on the system, and will delete signals from the system in accordance with the FCC's Rules.

To the extent that you are carried as part of a VPPs programming package pursuant to retransmission consent, you should notify that VPP. Please make all notifications to RCN Telecom required by these regulations to:

Lew Scharfberg
Vice President of Video Management
RCN Telecom Services, Inc.
105 Carnegie Center
Princeton, New Jersey 08540

Please call me at (609) 734-3873 if you have any questions regarding RCN Telecom's OVS or any of the FCC's must carry or retransmission consent requirements.

Very truly yours,

Lew Scharfberg
Vice President of Video Management
